Testimony on SB 312

My name is Leigh Shemitz.

I live in Stamford (135 Hannahs Road)

The bottle bill, including the refundable deposit, has served us well and should be retained. The impact on our environment has been substantial, as people no longer toss bottles and cans. The price impact is negligible

This is a government plan that WORKS, so as a resident and voter I urge you to please vote against Senate Bill 312.

Thank you.
